during the last two decades companies were and still are looking for new sources of efficiency while most industries have reached stages of maturity and saturation moreover internationally available information and communication systems at near zero transaction costs are leading to intensified interactions between

customers and between customers and firms as for cooperatives they are experiencing not only the impacts of market transformation but also pressure on the relevance of their own identity in this book two theoretical models are developed a new cooperative paradigm npc and a cooperative equilibrium model the combination of these two models highlights the potential competitive advantages of the cooperative organization in response to the transformations mentioned in relation to the npc the strategies selected are 1 value congruence 2 psychological ownership 3 loyalty and customer engagement and 4 value co creation for each of these strategies three key questions are addressed first what are the competitive advantages associated with them regardless of the organizational form second how do the foundations of the cooperative distinction converge with the essential parameters to be mastered to design implement and operationalize these strategies finally what are the unique sustainable competitive advantages of a cooperative organization relative to these same strategies furthermore for the logic of action specific to the cooperative management method to be expressed the cooperative values principles and rules must be articulated in an appropriate management framework this is what the cooperative balance model proposes the last key idea introduced in this book concerns the denaturalizing tendency observed among many cooperatives which leads to an identity crisis the two theoretical models cited are highly relevant to the challenges resulting from this denaturalizing tendency the three models introduced constitute the first part of this book the second part offers a practical perspective while several cases of cooperatives are included coopmanagement ca

the conditions of success offers an informed account of the career structure of the modern artist and a realistic appraisal of the steps by which his or her reputation is made

in today s competitive environment manufacturing and service companies are intensifying their customization processes customization means companies must meet the challenge of providing individualized products and services without introducing high costs therefore companies must address both customization and cost factors to gain a competitive advantage while product customization is the manufacturing of products according to individual customer needs it does not involve any focus on the cost perspective information and management systems for product customization will concentrate on both product

customization and costs efficiency which is termed as mass customization moreover mass customization with its multi dimensions is the new business paradigm challenging today s manufacturing companies

insight and intuition might be the most mysterious and fascinating fields of human thinking and problem solving they are different from standard and analytical problem solving accounts and provide the basis for creative and innovative thinking until now they were investigated in separate academic fields with differing tradition therefore this ebook attempts to bridge the gap between both processes and to provide a more integrated perspective several experts address the underlying cognitive processes and provide a broad spectrum of new empirical theoretical and methodological insights

when the cold war ended many hoped it signified enhanced prospects for a more stable world however despite favorable political developments the post cold war period has been marked by turbulence uncertainty and challenge the actions of rogue states such as iraq and north korea have made nuclear proliferation more unpredictable violence in somalia and bosnia has cast doubt on the viability of international peacekeeping arrangements hopes for expanding democratization have been dimmed by assertions that the values of liberal democracy and human rights are incompatible with non western cultures the adaptive military describes how military security policies and practices have adapted to these new times and explains why such changes are necessary the central argument is that current conflicts have been shaped by long term trends which increased the number and complexity of threats that the developed world is supposed to meet and correspondingly decreased the stock of social and political options available to meet them although the authors differ in their assessments about the current prospects for peace and ways to maintain security the issues they address are as critical as they were at the end of the cold war mobilizing resources and political support for remote and difficult enterprises will always remain contentious but if we recognize the hazard of letting violence run unopposed throughout the world then we bear some responsibility to consider how it might be checked this volume is an exercise of that responsibility it will be of great interest to experts in military studies and international relations james burk is professor of sociology at texas a m university and was formerly editor of armed forces and

society he is the author of many articles on civil military relations and editor of morris janowitz on social organization and social control
